Hon. Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

This is in response to the Office Action dated
December 3, 1991, in the above-identified matter.

REMARKS

Reconsideration and Allowance of the above-referenced
application are respectfully requested.

Claims 14, 26, 29, 40, 41, and 44-60 stand rejected under
35 U.S.C. 101 because the instant disclosure allegedly lacks both
the necessary diagnostic and prognostic data to support the
claimed diagnostic and prognostic utility.

The Applicants would like to draw the Examiner's
attention to Paik et al. (1990) J. of Clinical Oncology 8(1):103-
